

# MSQ4-9 - MOC 10988 - MANAGING SQL BUSINESS INTELLIGENCE OPERATIONS

Categoria: **SQL Server 2017 e 2016**

## INFORMAZIONI SUL CORSO

**Durata:**  
3 Giorni

**Categoria:**  
SQL Server 2017 e  
2016

**Qualifica Istruttore:**  
Microsoft Certified  
Trainer

**Dedicato a:**  
Professionista IT

**Produttore:**  
Microsoft

## OBIETTIVI

Descrivere le caratteristiche fondamentali di una soluzione self-service di BI  
Descrivere le funzionalità chiave di SQL Server BI in un ambiente SharePoint  
Descrivere i comuni compiti operativi di Analysis Services  
Descrivere PowerPivot per SharePoint Server  
Descrivere Power Query  
Descrivere Windows Azure HDInsight

## PREREQUISITI

Una certa conoscenza di base della topologia di uno schema di data warehouse (es. schemi a stella e a fiocco di neve)  
Esposizione ai costrutti di base della programmazione (ad esempio, looping e branching)  
Auspicabile anche una consapevolezza delle priorità di business (es. entrate, redditività e contabilità finanziaria).

## CONTENUTI

### **Module 1: Introduction to Operational Management in BI Solutions**

Rationale for BI Operations  
Roles in BI Operations  
Technologies Used in BI Operations  
Environment and Operational Standards

### **Lab : Introduction to Operational Management in BI Solutions**

After completing this module, you will be able to:  
Describe the rationale for BI operations.  
Describe roles in BI operations.  
Describe the technologies used in BI operations.  
Describe environments and operational standards.

### **Module 2: Configuring BI Components**

The Importance of Standardized Builds  
Configuration Considerations for BI Technologies  
BI Architectures  
SharePoint BI Environments

**Lab : Configuring BI Components**

After completing this module, you will be able to:

Describe the importance of standardized builds.

Describe the configuration considerations for BI technologies.

Describe BI architectures.

Describe SharePoint BI environments

**Module 3: Managing Business Intelligence Security**

Security Approach to BI Solutions

Security Components

Security Approach for BI Components

The Security Approach in Different BI Environments

**Lab : Managing Business Intelligence Security**

After completing this module, you will be able to:

Describe the security approach to a BI solution.

Understand the security components available.

Apply the security components to BI technologies.

Manage security in different environments

**Module 4: Deploying BI Solutions**

Application Life Cycle Management for BI Solution

Stand-Alone Deployments

Team-Based Deployments

**Lab : Deploying BI Solutions**

After completing this module, you will be able to:

Understand application life-cycle management for BI solutions.

Understand stand-alone deployments.

Understand team-based deployments

**Module 5: Logging and Monitoring in BI Operations**

The Need for Logging and Monitoring

Logging Options

Monitoring Options

Setting Up Alerts

**Lab : Monitoring BI Solutions**

After completing this module, you will be able to:

Describe the need for logging and monitoring.

Use various logging options.

Use monitoring tools.

Set up notifications.

**Module 6: Troubleshooting BI Solutions**

Troubleshoot Failed BI Solutions

Troubleshooting the Data Warehouse

Troubleshooting SQL Server Analysis Services

Troubleshooting SQL Server Reporting Services

**Lab : Troubleshooting BI Solutions**

After completing this module, you will be able to:

Troubleshoot failed BI solutions  
Troubleshoot data warehouses  
Troubleshoot Analysis Services  
Troubleshoot Reporting Services

### **Module 7: Performance Tuning BI Queries**

The Need for Performance Tuning  
BI Queries to Performance Tune  
Tools for Performance Tuning  
Remediating Performance Issues

### **Lab : Performance Tuning a BI Solution**

After completing this module, you will be able to:  
Understand the need for performance tuning.  
Describe the BI queries required to carry out performance tuning.  
Use the tools for performance tuning.  
Remediate performance problems

## **INFO**

**Materiale didattico:** Materiale didattico in formato digitale

**Costo materiale didattico:** incluso nel prezzo del corso a Calendario

**Natura del corso:** Operativo (previsti lab su PC)
