Categoria: **Tecnologie e Metodi**

INFORMAZIONI SUL CORSO

Durata:	Categoria:	Qualifica Istruttore:	Dedicato a:	Produttore:
3 Giorni	Tecnologie e Metodi	Docente Senior (min. 5 anni)	Utente	PCSNET

OBIETTIVI

This course is suitable for instructors who want to improve their instructional skills delivering any kind of training and presentations.

After attending this course, the participants will be able to:

- -Prepare for the execution of a training course.
- -Create a good lesson design and storytelling, even with custom material.
- -Guide the learning process of the students in a didactically responsible way and align the training with the experience of the audience.
- -Create learning conditions for learners with different learning styles.
- -Use interactive teaching methods, such as teaching-learning conversations, feedback, different types of questions, exercises, etc.
- -Exploring how to use AI tools to build effective material for delivery.
- -Test the learning efficiency of students.
- -Use learning resources correctly during training sessions.

The course will include a live assessment at the end of the course to test the improved ability of the participant to deliver technical presentations.

The course can be delivered in Italian or in English.
