Microsoft

OBIETTIVI

The Solution Architect is responsible for the successful design, implementation, deployment and adoption of an overall solution. The Solution Architect ensures that the solution meets the customer's needs now and in the future. In this course, students will learn about decisions a Solution Architect makes during an implementation, covering security, integrations, Power Apps architecture, Power Automate architecture, and more. This course is designed to give you an introduction to the Solution Architect role.

PREREQUISITI

To attend this course you should be a Senior Consultant (both functional and technical) that aspire to be Solution Architect.

CONTENUTI

Architect solutions for Dynamics 365 and Microsoft Power Platform

- Becoming a solution architect for Dynamics 365 and Microsoft Power Platform
- Discover customer needs as a Solution Architect for Dynamics 365 and Microsoft Power Platform
- Propose a solution as a Solution Architect for Microsoft Power Platform and Dynamics 365
- Work with requirements as a solution architect for Microsoft Power Platform and Dynamics 365
