CTIA-3 - COMPTIA LINUX+

Categoria: **CompTIA**

INFORMAZIONI SUL CORSO

Durata:	Categoria:	Qualifica Istruttore:	Dedicato a:	Produttore:
5 Giorni	CompTIA	Docente Senior (min. 5 anni)	Professionista IT	CompTIA

OBIETTIVI

CompTIA Linux+ teaches you the ability to manage, secure, automate, and troubleshoot Linux systems in cloud and hybrid environments. You will gain hands-on experience with automation, orchestration, security, and containers to prepare for roles like Linux systems administrator, systems engineer, and network engineer. You'll learn how to support and protect the critical Linux platforms that businesses rely on.

PREREQUISITI

Aver frequentato i corsi CompTIA A+ e Network+ o avere conoscenze equivalenti

CONTENUTI

Lesson 1: Identifying Basic Linux Concepts
Lesson 2: Administering Users and Groups
